Profile

Professional Writer and aspiring researcher in computational sciences. My greatest interest lies in computational models of human decision-making, hybrid AI models combining rules-based systems with learning systems, abstract argumentation, and business strategies. I am also interested in philosophical discussions about economic justice, Gender equality, and what should be predicated as truth.

As you may see I am a very active person. How do I manage all that? I love work that is valuable and I love to contribute to society's well-being as best as I can.
