Internship at the Neural Data Science Group

To Whom It May Concern,

I am writing to confirm that Yidiz Culcu successfully completed an internship with our Methods Group on Neural Data Science and Statistical Computing at the Max Planck Institute for Human Cognitive and Brain Sciences in Leipzig (MPI CBS) from Feb 27, 2024, to April 07, 2024. Our group develops computational tools to study structure and function of neural systems at the interface of neuroscience and AI. During this period, Yildiz worked on the neural representation learning in AI models covering both theoretical research and computational experiments, demonstrating exceptional ability, dedication, and professionalism.

Should you require any further information, please feel free to contact me.

Kind regards,

Nico Scherf
